

Weather Proof/Surface Mount Cover

The Weather Proof Cover is an accessory for the Series A family of products. The Series A has been designed to meet NEMA 4X standards when installed with the Weather Proof Cover, included gasket, and appropriately connected with a ¾" or PG-21 conduit connection. The Weather Proof Cover also allows any Series A gauge or control to be surface mounted with the included hardware.

Opti-Link™ Universal Programming Key

Opti-link™ is an infrared communications technology that allows the user to upload and download program parameters from one unit to another with a programming key. By using the PK-01 universal programming key, the user may program one unit, download those parameters to the universal programming key and then upload that same program from the key to other controls.

PK-01 Universal programming key\$50.00

Opti-Link™ Lock/Unlock Programming Key

Opti-link™ is an infrared communications technology that allows the user to upload and download program parameters from one unit to another with a programming key. By using a PK-02 lockout programming key, a user may completely lock (or unlock) the face keypad of the control to eliminate the possibility of unwanted tampering of the control.

PK-02 Keypad lock/unlock key\$50.00
